

V5010 / ICD 10 compliance is complicated. Your conversion process doesn't have to be with MindLeaf Technologies, Inc.

MINDLEAF'S STEPS TO COMPLIANCE SUCCESS

Pre-engagement

- Define project scope
- Inventory affected HIPAA maps and transaction processes

Phase I

- Map current system-wide architecture and process flow
- Review existing process flow for compliance.
- Review HIPAA maps and transaction process; define task of converting them to V5010 format

Phase II

- Install or upgrade EDI Server tools
- Develop V5010-based versions of all required EDI translation maps and business processes

Phase III

- Completed HIPAA V5010 maps tested to meet customer requirements (WEDI types 1-7 testing)

Phase IV

- Documentation and Knowledge Transfer

Let MindLeaf handle the conversion of your business to the new regulatory standards. We minimize the disruption and maximize the benefits with our high quality, cost-effective services.
